Develop activities involving a more extensive community in an accessible language

Congratulations!

Well done!

More structure in the break out groups. Clear outcomes and objectives.

Congratulations! Thanks for the chance to participate in this event

Breakout sessions could be more productive if we would know in advance the issues to work in and if we could get the documentation in advance to read it previously

If workshop participants were indeed expected to provide feedback on the draft policy during the breakout session, then that policy would have to be made available to them beforehand. The panel session had very little input from the audience. Some demos instead or in addition to some of the talks would have been nice.

I really liked the idea of the break out session, and I think it is very important to have them. I would have liked to see them more structured and guided. What are the objectives of the session organizers? What are the expectations of audience? What should be the outcome? I did not have the policy draft available in advance, what would have helped as well.

Everything fine! Congratulations to the organizers
